AMENDMENT

Honorable Commissioner of Patents  
Washington, D.C. 20231

Sir:

In response to the Office Action dated May 21, 2002 please amend the above-  
identified application as follows:

IN THE SPECIFICATION:

Please amend the title as follows:  
ELECTRO-OPTICAL DEVICE

Please amend the abstract as follows:

AI  
An electro-optical device is disclosed. The device comprises a pair of substrates  
and an electro-optical modulating layer (e.g. a liquid crystal layer) having sandwiched  
therebetween, said pair of substrates consisting of a first substrate having provided  
thereon a plurality of gate wires, a plurality of source (drain) wires, and a pixel matrix  
comprising thin film transistors, and a second substrate facing the first substrate,  
wherein, among the peripheral circuits having established on the first substrate and  
being connected to the matrix wiring for the X direction and the Y direction, only a part of  
said peripheral circuits is constructed from thin film semiconductor devices fabricated by  
the same process utilized for an active device, and the rest of the peripheral circuits are
